**FOI ref: FOI-00585**

Further to your email below, I can now respond to your request dated: 25/02/24

Following receipt of your request, searches were conducted within Manchester Metropolitan University (the University) to locate the requested information and I can confirm that some of the information requested is held by the University.

**Please find below/attached the information held currently in the categories you have requested:**

**1) From 2015 to 2023, the numbers of Manchester Metropolitan University degrees (including all Bachelor and Master) conferred every year at the Manchester Metropolitan Joint Institute at Hubei University (Manchester Metropolitan Joint Institute in short) and Sino-British College at University of Shanghai for Science and Technology (Sino-British College in short). Please provide this information in aggregated numbers by different programmes**

Manchester Met has not conferred any degrees on students studying at the Manchester Metropolitan Joint Institute, Hubei University. The first cohort of students are in their 3rd year of a four-year degree programme, and so the earliest any student can graduate would be the summer of 2025.

Manchester Met does not confer degrees on students who study their degree in China at the Sino British College.

**2) Lists of education programmes, research projects, and research grants that are currently operational at Manchester Metropolitan Joint Institute and Sino-British College, either participated by Manchester Metropolitan Joint Institute and Sino-British College students and staff or sponsored by the Manchester Metropolitan Joint Institute, Sino-British College and the Manchester Metropolitan University.**

Manchester Met staff deliver the following programmes to students who are enrolled at Manchester Met (and at Hubei University) as part of the Manchester Metropolitan Joint Institute, Hubei University:

- BSc (Hons) Chemistry
- BEng (Hons) Electrical and Electronic Engineering
- BSc (Hons) Software Engineering
- MSc Advanced Materials

The Joint Institute itself does not have any staff – they are either employed by Manchester Met or by Hubei University, and students are enrolled at the two universities.

Manchester Met does not deliver programmes at the Sino British College and students at the Sino British College are not enrolled with Manchester Met.

**3) Manchester Metropolitan University policies and governance structure which oversee the operations, including student experience and research, at the Manchester Metropolitan Joint Institute and Sino-British College. Please provide relevant policy documents and/or relevant administrative staff role specifications where applicable.**

The formal governance of the Joint Education Institute is by a "Joint Management Committee" and an "Academic Committee and Discipline Development Committee", which includes membership of both Manchester Met and Hubei University. Additionally, Manchester Met has a Steering Group and Operational Management Group which oversee the work of the JEI from Manchester Met's perspective.

Manchester Met is not responsible for the governance or policies of the Sino British College.

**4) From 2015 to 2023, donations, grants, and research fundings received by the Manchester Metropolitan University and its affiliated entities from the Hubei University, University of Shanghai for Science and Technology and/or any affiliated individuals, companies, or relevant Chinese official agencies.**
