Freedom of Information Request 189/22-23

Response Date: 16/05/2023

I am conducting a survey of UK higher educational institutions to find out which have had business dealings with the Chinese genomic sequencing company BGI Genomics.

I would like to ask whether your university has ever had any contracts or business relationships with BGI Genomics or its UK subsidiary MGI Tech UK. If there has been any work undertaken by BGI Genomics with your university, please can you provide a list of these contracts with dates from and to, and a short description of what the contract was for.

RESPONSE

The University can confirm that neither of the two companies named above either fund or partner for any research project. In addition, the MSc Genomic Medicine Course is not associated with these companies.
